

ROYAL

Baking Powder

Absolutely Pure

Makes hot breakfast-breads wholesome—no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries, Royal is indispensable.

Care must be taken to avoid baking powder made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Not only will they spoil the cake, but alum is a corrosive acid, which takes its food means injury to health.

The towboat Clifton and three flats of coal are around at Duff, on the Upper Ohio river. All towboats on their way to Pittsburgh with empties have been forced to the hand and navigation is virtually suspended. That is the condition on the Upper Ohio river.

The towboats that were en route to Pittsburgh with empties are tied up at the following places: The Tom Rees No. 2, Mariner, Hornet No. 2, at Wheeling; the John DeLong, the John DeLong and Sam Brown, at the top mill; John W. Alles and Pacific, at Freedom; J. C. Risher and E. Roberts at San Harior; Jim Wood at Bellaire; Iron Age, San Clarke, Ironside, Tom Dodsworth, Old Ironsides, Union, and the Almond Fred Wilson below Fish Creek. All of these boats have large tons of empties, but the Ohio has fallen to such a stage that it will be impossible to get them to Pittsburgh until there is a rise.
